

DePuy Synthes CONDUIT™ SYNFIX™ Evolution Secured Spacer System
Patient Implant Card

INSTRUCTIONS

Please print and provide the Patient Implant Card to your DePuy Synthes CONDUIT SYNFIX Evolution patient. Please fill out the front page of the Implant Card.

EXPLANATION of the IMPLANT CARD:

The Patient Implant Card is intended for US patients who receive DePuy Synthes CONDUIT SYNFIX Evolution implants. The Implant Card provides MRI safety status of the DePuy Synthes CONDUIT SYNFIX Evolution implants and URL/contact information where full MRI safety information can be found.

It is recommended that patients carry the Implant Card at all times to identify themselves as individuals who have a DePuy Synthes CONDUIT SYNFIX Evolution implant. This Implant Card is useful for situations in which patients may need MRI scanning or must go through a metal detection device.

For access to the e-IFU, visit www.avalign.com/ifu.
